EcoTread™

STAIR TREADS + NOSINGS

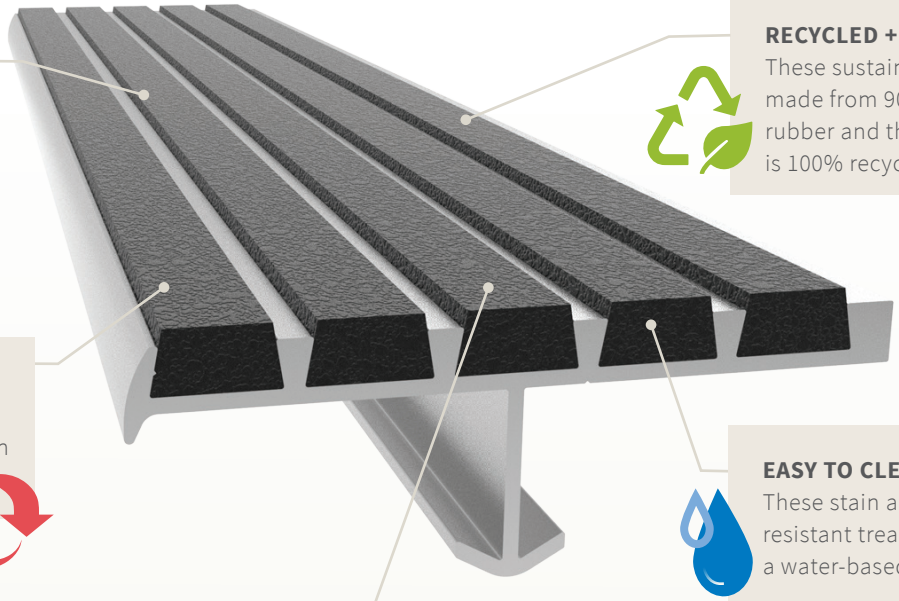
Sustainability, one step at a time.

The EcoTread Stair Nosings offer a sustainable and ecofriendly material option. An industry first, these treads are engineered with recycled aluminum and rubber. Multiple tread options provide a variety of coordinating color options that are perfect for both interior and exterior use.

FADE + WEAR RESISTANT
A durable product that will stand up to weather extremes and foot traffic.

RECYCLED + RECYCLABLE
These sustainable treads are made from 90%† recycled rubber and the entire system is 100% recyclable.

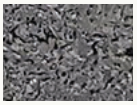


EASILY REPLACEABLE
Should a tread get damaged, replacement insert installation is quick and easy.

EASY TO CLEAN + MAINTAIN
These stain and chemical resistant treads are coated with a water-based protectant.

CONTEMPORARY COLOR CHOICES
Choose from 4 EcoTread color options to complement your building aesthetics.

OPTIONS



Black EcoTread† 90%

Safety Yellow EcoTread 5%

Photoluminescent

Resin Strip *(STSM, STRM & STTM only)*

Abrasive Grit Strip *(STSM, STRM & STTM only)*

c UL us LISTED

Colors shown give only an indication of shade. Samples are available upon request.
†90% recycled rubber available in Black EcoTread only. All other recycled content noted by color swatches.
